

Safer Space Elections 2025

- I will help ensure, through my own behaviour, that all candidates are able to feel welcome on the Youth Council, regardless of their personal attributes (gender, ethnic background, sexual orientation, functional capacity, language, class or other feature).
- I will take responsibility for my own actions and will also intervene in inappropriate speech or behaviour by others, when necessary.
- I will value all candidates equally, regardless of how much previous experience in influencing work they have.
- I will let all candidates define their own identity and I will not make assumptions about the identity or background of others.
- I will give all candidates an equal opportunity to be heard, seen and understood. By doing so, everyone will have an opportunity to verbalise their thoughts and opinions.
- I will encourage, support and respect the other candidates throughout the election process.
